The way we bank is changing

More and more people are choosing to do their banking online, with our Mobile Banking app, or over the phone. It's more convenient to do it at a time and place that suits you, rather than come into branch. This means some branches are being used a lot less than they used to be.

-
- Branch usage is down 40% since 2014*
 - 1.1 billion mobile and online transactions in first half of 2017 – an increase of 41% since the second half of 2014*
 - Number of customers using our mobile app up by 43% since 2014*
 - Mobile transactions up by 73% since 2014 *

*Data inclusion: Royal Bank of Scotland, NatWest and Ulster Bank Northern Ireland.

How we decide to close a branch

Closing a branch is a decision we take very seriously. A broad range of local factors are considered and contribute to our decision-making process:

- We consider a range of local factors over a long period (June 2012-2017)
- How customers are choosing to bank with us
- How often customers are using the branch and what transactions they are doing
- Impact on customers who currently use the branch
- Other options available to customers including online, mobile, Telephony, Webchat, cash machines, Video Banking and everyday banking services that can be done at local Post Offices
- The proximity of our other branches, including our network of mobile branches
- Local transport routes and timetables

We'll help you with other ways to bank
