

KEY INVESTOR INFORMATION

This document provides you with key investor information about the Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the Fund. You are advised to read it so you can make an informed decision about whether to invest.

RBS Stakeholder Investment Fund ICVC

Accumulation Share Class 1 (ISIN: GB00B06BRP07)

The Fund is managed by RBS Collective Investment Funds Limited, part of The Royal Bank of Scotland Group plc

OBJECTIVES AND INVESTMENT POLICY

The objective of the Fund is to achieve long term capital growth and income.

To achieve this, the Fund will invest in a portfolio of UK equities, bonds (predominantly gilts) and cash deposits. The portfolio will follow an index-tracking approach in relation to these underlying asset classes.

The aim is to track a customised benchmark comprising 55% FTSE® All Share Index, 43% FTSE® Actuaries UK Conventional Gilts All Stocks Index and 2% LIBID (7 day).

The Investment Manager is able to make discretionary choices when deciding which investments should be held subject to the aim of closely tracking the benchmark.

The Fund may use derivatives for efficient portfolio management only.

For liquidity management purposes the Fund may also invest in other transferable securities, deposits and units or shares in collective investment schemes.

The FTSE All Share Index is part of the FTSE UK Series and is designed to measure the performance of all companies traded on the London Stock Exchange. The FTSE Actuaries UK Conventional Gilts All Stocks Index, is an index for conventional (or fixed interest) gilt-edged securities of all outstanding terms to redemption. LIBID is calculated through a survey of

London banks to determine the interest rate at which they are willing to borrow large eurocurrency deposits.

For more information on the FTSE® All Share and FTSE® Actuaries UK Conventional Gilts Indices, please go to:

<http://www.ftse.com/products/indices/uk> and <http://www.ftse.com/products/indices/Gilts>

and select the Fact Sheet for “FTSE Actuaries UK Conventional Gilts All Stocks”.

You may normally buy or sell your shares in the Fund on each Business Day. Requests received and accepted by 5pm on a Business Day will be dealt at the price calculated on the next Business Day.

The Fund only issues Accumulation shares and any income is automatically accumulated and reflected in the price of each Accumulation share.

The Fund is designed for retail customers with little or no experience of investing in collective investment schemes and basic or no knowledge of the characteristics and risks of investing in equities and bonds (capital markets).

A typical investor in the Fund has a medium tolerance for risk; they accept that the value of their investment may fluctuate and they have a medium tolerance to bear losses to their capital. The minimum investment horizon is 5 years.

RISK AND REWARD PROFILE

These ratings indicate how the Fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a higher risk of losses. The lowest rating does not mean a risk free investment.

The Fund is ranked at 4 because funds of this type have experienced average rises and falls in value in the past.

The risk and reward category for the Fund is not guaranteed to remain unchanged, and may shift over time.

Historical data, such as is used for calculating the rating, may not be a reliable indication of the future risk profile of the Fund.

The following risk factors contribute to the overall risk and reward indicator:

1. The Fund invests in company stocks and shares and their value depends on the financial state of the underlying companies. Any fall in the financial outlook for, or failure of, such companies can reduce the Fund's share price.
2. As the Fund holds fixed interest securities the share price will rise and fall due to movements in interest rates and inflation.
3. Smaller companies are likely to be financially weaker and less well established than larger companies. Therefore shares in such companies are generally a higher risk investment than shares in larger companies.

CHARGES

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or paid out

Charges taken from the Fund over a year

Ongoing charge 1.50%

Charges taken from the Fund under certain specific conditions

Performance fee None

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it, but not the costs of any advice you have been given. These charges reduce the growth of your investment.

Any entry and exit charges shown are maximum figures, and in some cases investors may pay less.

Ongoing charges are based on the expenses for the year ending 31/03/2018, and this figure may vary from year to year.

For more information about charges, please see the Fees and Expenses section of the Fund's Prospectus.

PAST PERFORMANCE

This chart shows how much the Fund increased or decreased in value as a percentage in each year, alongside its benchmark.

Performance for the Fund has been calculated in Pounds Sterling and takes account of ongoing charges, but excludes entry and exit charges. Performance for the benchmark is based on Index returns and so does not allow for any charges.

The Fund was launched in 2005.

Past performance is not a reliable guide to future performance.

PRACTICAL INFORMATION

With effect from 28 February 2019 the Depositary for the Fund is The Bank of New York Mellon (International) Limited, who are responsible for the safekeeping of the Fund's assets and ensuring the Fund is managed in accordance with FCA rules. The previous Depositary was JP Morgan Europe Limited.
